

§ 113A-60. Local erosion and sedimentation control programs.

(a) A local government may submit to the Commission for its approval an erosion and sedimentation control program for its jurisdiction, and to this end local governments are authorized to adopt ordinances and regulations necessary to establish and enforce erosion and sedimentation control programs. An ordinance adopted by a local government may establish a fee for the review of an erosion and sedimentation control plan and related activities. Local governments are authorized to create or designate agencies or subdivisions of local government to administer and enforce the programs. An ordinance adopted by a local government shall at least meet and may exceed the minimum requirements of this Article and the rules adopted pursuant to this Article. Two or more units of local government are authorized to establish a joint program and to enter into any agreements that are necessary for the proper administration and enforcement of the program. The resolutions establishing any joint program must be duly recorded in the minutes of the governing body of each unit of local government participating in the program, and a certified copy of each resolution must be filed with the Commission.

(b) The Commission shall review each program submitted and within 90 days of receipt thereof shall notify the local government submitting the program that it has been approved, approved with modifications, or disapproved. The Commission shall only approve a program upon determining that its standards equal or exceed those of this Article and rules adopted pursuant to this Article.

(c) If the Commission determines that any local government is failing to administer or enforce an approved erosion and sedimentation control program, it shall notify the local government in writing and shall specify the deficiencies of administration and enforcement. If the local government has not taken corrective action within 30 days of receipt of notification from the Commission, the Commission shall assume administration and enforcement of the program until such time as the local government indicates its willingness and ability to resume administration and enforcement of the program.

(d) A local government may submit to the Commission for its approval a limited erosion and sedimentation control program for its jurisdiction that grants the local government the responsibility only for the assessment and collection of fees and for the inspection of land-disturbing activities within the jurisdiction of the local government. The Commission shall be responsible for the administration and enforcement of all other components of the erosion and sedimentation control program and the requirements of this Article. The local government may adopt ordinances and regulations necessary to establish a limited erosion and sedimentation control program. An ordinance adopted by a local government that establishes a limited program shall conform to the minimum requirements regarding the inspection of land-disturbing activities of this Article and the rules adopted pursuant to this Article regarding the inspection of land-disturbing activities. The local government shall establish and collect a fee to be paid by each person who submits an erosion and sedimentation control plan to the local government. The amount of the fee shall be an amount equal to eighty percent (80%) of the amount established by the Commission pursuant to G.S. 113A-54.2(a) plus any amount that the local government requires to cover the cost of inspection and program administration activities by the local government. The total fee shall not exceed one hundred dollars (\$100.00) per acre. A local government that administers a limited erosion and sedimentation control program shall pay to the Commission the portion of the fee that equals eighty percent (80%) of the fee established pursuant to G.S. 113A-54.2(a) to cover the cost to the Commission for the administration and enforcement of other components of the erosion and sedimentation control program. Fees paid to the Commission by a local government shall be deposited in the Sedimentation Account established by G.S. 113A-54.2(b). A local government that administers a limited erosion and sedimentation control program and that receives an erosion control plan

and fee under this subsection shall immediately transmit the plan to the Commission for review. A local government may create or designate agencies or subdivisions of the local government to administer the limited program. Two or more units of local government may establish a joint limited program and enter into any agreements necessary for the proper administration of the limited program. The resolutions establishing any joint limited program must be duly recorded in the minutes of the governing body of each unit of local government participating in the limited program, and a certified copy of each resolution must be filed with the Commission. Subsections (b) and (c) of this section apply to the approval and oversight of limited programs.

(e) Notwithstanding G.S. 113A-61.1, a local government with a limited erosion and sedimentation control program shall not issue a notice of violation if inspection indicates that the person engaged in land-disturbing activity has failed to comply with this Article, rules adopted pursuant to this Article, or an approved erosion and sedimentation control plan. The local government shall notify the Commission if any person has initiated land-disturbing activity for which an erosion and sedimentation control plan is required in the absence of an approved plan. If a local government with a limited program determines that a person engaged in a land-disturbing activity has failed to comply with an approved erosion and sedimentation control plan, the local government shall refer the matter to the Commission for inspection and enforcement pursuant to G.S. 113A-61.1. (1973, c. 392, s. 11; 1993 (Reg. Sess., 1994), c. 776, s. 7; 2002-165, s. 2.8; 2006-250, s. 3.)
